

NOTIFICATION #ASA20240805

Update of Approval Services PGP Key 2024

To: Product Vendors, Accredited Test and Tool Laboratories

Issue Date: August 05, 2024

Dear Valued Partners,

As part of Visa's commitment to maintain the highest level of data security, we are updating the Visa Approval Services PGP key. This update is an essential part of our strategy to ensure the confidentiality and integrity of data we exchange with our partners.

The new PGP Key is now available for download at Visa Digital Partner Services site via the following link: [Visa Approval Services PGP Key](#).

Before September 16, 2024, you have the option to use either the old or new Approval Services key for your encryption requirements.

From September 16, 2024, it is mandatory to use the new key for all encrypted files intended for Approval Services. The old key will be deactivated, and we will reject any files encrypted with it.

If you encounter any issues or have any queries related to this change, feel free to reach out to us at ApprovalServices@visa.com.

Best Regards,
Visa Approval Services
